There is nothing that our dedicated team holds more sacred than the honor of serving this community and being entrusted to take care of our friends and neighbors. As one of Andalusia's essential providers of healthcare and as a large employer, our hospital is proud to call this community home.

Since 1966, we've delivered compassionate, skilled healthcare to the family, friends and neighbors who come through our doors each day. In the process of delivering better health and wellness, we also strive to be a civic leader, be it through charitable care or contributing to charities. This report details the many benefits – often beyond our hospital walls – that Andalusia Health contributes to our community.

Thank you for choosing our hospital and for allowing us to be your partners in better health and a better Andalusia.

Sincerely,  
Vickie Demers  
CEO, Andalusia Health

## 2022 SUCCESS SPOTLIGHT

**Inviting the best possible providers** into our community and supporting them is essential to ensuring access to high-quality care. In 2022, we added 25 providers in Ophthalmology, Oncology, Radiology, Hospitalist & Emergency Medicine, and Pediatrics.

**By continually investing in our facilities**, we're helping to ensure that we continue to meet our community's healthcare needs. Last year, we spent more than \$1.9 million in capital improvements, including a new chiller, a new radiology information system, emergency room and patient room monitors, endoscopy equipment, anesthesia monitors, orthopedic surgical equipment, and PHACO machines for our ophthalmology services.

**We strive to create an environment where talent is recognized**, job satisfaction is valued and our employees can effectively use their skills to provide high-quality care and service.

**In 2022, we provided more than \$5 million in healthcare services to those in need** but without the means to pay.

**We are proud to be a leader in Andalusia**, and our dedication to ensuring fiscal responsibility extends both to our hospital and to our community.
